INTRODUCTION

1358797

The 1923 edition of the INDIANAPOLIS CITY DIRECTORY is herewith presented to patrons. The volume embodies the sixty-ninth issue of the publication, and constitutes a complete, modern Directory, fully commensurate in style, make-up and information with the Directories of the larger cities of the country. The Directory has ever kept pace with the uniform growth and progress of the city and expansion of its manifold interests and activities and is steadily devoted to the advancement of all that is vital in the commercial, social and industrial life of the municipality.

In the present volume all of the essential features which have proven so satisfactory to our patrons in previous issues have been retained and amplified and improvements added as suggested by experience, in order to add to the value and usefulness of the Directory thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The Directory contains a valuable fund of information concerning State, County and City Executives, Banks, Asylums, Hospitals and Homes, Building Loan and Savings Associations, Cemeteries, Charity Organizations, Churchces, Clubs, College Societies, Courts, Federal Officers, Foreign Consular Corps, Insurance Companies, Labor Organizations, Libraries, Newspapers and Periodicals, Medical and Dental Colleges, Miscellaneous Organizations, Musical Societies, Post Office Data, Public Buildings and Halls, Parks, Public and Private Schools, Railways, Secret Societies, etc.

An invaluable feature of the Directory is the Buyers' Guide, printed on tinted paper and containing the advertisements of prominent and progressive business men and concerns, arranged by classification appropriate to the nature of the business pursued—"The Directory is the common intermediary between the Buyer and Seller."

The statistical review which follows this Introduction is especially noteworthy as clearly visualizing the greatness of the city in its civic, social, commercial and industrial aspects.

POPULATION OF GREATER INDIANAPOLIS

As in previous years the Directory canvass was not confined to the actual city limits but embraced all adjacent suburban territory, the residents of which are to all intents and purposes a part of the social, commercial and industrial life of Indianapolis; their residents are dependent upon the city for their prosperity, and they enjoy the civic advantages offered by it, since most of the residents have their business interests and activities therein and are intimately connected with it in every relation except governmental.

In this issue of the Directory there are listed 138,644 individual names; a conservative estimate of the population is obtained by multiplying the number of names by 2½, to allow for the names of married women and children which have not been included in the enumeration. This gives Greater Indianapolis a population of 346,610, a gain of 11,350 over the population of 1922.

A complete library including directories of all the principal cities is maintained in our offices, 225 N. New Jersey Street, for the convenience and free use of our patrons. For the benefit of our advertisers and as a means of advertising the City and its business interests, copies of this edition of the Indianapolis City Directory will be placed on file in the Directory Libraries in all of the larger cities throughout the country.

THE CHAMBER OF COMMERCE.

The one organization in a community which upholds the ideals of good citizenship, right living and active co-operation among individuals and organizations making up the city's life is the Chamber of Commerce. It surveys the community with a telescope to see the whole at once and at the same time with a microscope to search out the details. It encourages and co-ordinates individual efforts and takes its prominent place in all worthwhile community activities. It spells its mission in life "Give" not "Get". The Chamber of Commerce is the guide, philosopher and friend of the home city and the community. With this background in mind any community must thoroughly realize that the efforts of community upbuilding tend toward evolution. It therefore becomes of the utmost importance to each of us to realize that the Chamber of Commerce is an organization through which public spirited citizens in a community may express themselves collectively on questions of community welfare and through which they may make their collective desires effective. Cities to not happen—co-operation builds them. In business as in life, he gets the most out of it who gives the most to it. The dividends are based on the investment.

Directory Libraries

¶ Every Polk office has a library of directories of various cities. These are maintained for the convenience of our patrons, and they are constantly supplying information of many different kinds to people who come to use them.

¶ City Directories are City Catalogs. They contain a list of everybody and everything within a city. Many of the more progressive concerns buy directories of various cities as they are issued for mailing list purposes.

The National Seven-Passenger Touring

Those whose appreciation of fine motor cars is keenest, find much to endorse in the National.
A long record in high grade automobile manufacturing has very thoroughly qualified the makers to combine in their product a ruggedness which comes only with mechanical skill, and the comfort and refinement which result from good designing.
Truly, the new Nationals are cars for the discriminating.

The Union Trust Company is organized under a special law which requires a guarantee of ample financial responsibility, and establishes a state supervision. It must be examined twice a year by the Auditor of State, and it may be examined at any time he pleases. The safeguards of law thus thrown about it assure correct management. It is authorized to execute all kinds of trusts; is a legal depository for court and trust funds.

Men of Affairs—

Safeguard their Estates by appointing a responsible Trust Company to act as Executor or Trustee. There is no reason why smaller estates should not be similarly protected. They are in greater need of it---can less afford to incur risk. Any man with property to bequeath to his heirs should take this means of safeguarding them against unwise investment and also avoiding the uncertainties of individual trusteeship due to possible death, sickness or absence. A personal call or correspondence invited.

Directory Libraries

¶ Every Polk office has a library of directories of various cities. These are maintained for the convenience of our patrons, and they are constantly supplying information of many different kinds to people who come to use them.

¶ City Directories are City Catalogs. They contain a list of everybody and everything within a city. Many of the more progressive concerns buy directories of various cities as they are issued for mailing list purposes.

THE PRESTIGE OF PETTIS AS A STORE FOR FINER GOODS

has become so widely established in the fine markets—that makers of great numbers in quality goods seek distribution through this Store—for example—Pettis has representation for—

—PHOENIX HOSIERY
—CORTICELLI HOSIERY
—MERODE KNIT UNDERWEAR
—NEMO CORSETS
—MEADOWBROOK HATS
—ELIZABETH ARDEN TOILETRIES
—KAYSER GLOVES
—REDDY NOTIONS
—"HEATHER" LINENS, Etc.

The association of fine goods with this store is natural—"water seeks its own level."

Stafford Tones—

are different from ordinary half-tones. They are so hard-faced their printing ing life is three or four times greater.
Unlike copper, they have no affinity for ink and all the ink is released at every impression, resulting in wonderful richness and great cleanliness.
They are so ***hard*** they are practically immune from scratches; inks will not corrode them. Specify "Stafford-tones"—the greatest development in process engraving in years. Patented Nov. 7, 1922.

Directory Libraries

¶ Every Polk office has a library of directories of various cities. These are maintained for the convenience of our patrons, and they are constantly supplying information of many different kinds to people who come to use them.

¶ City Directories are City Catalogs. They contain a list of everybody and everything within a city. Many of the more progressive concerns buy directories of various cities as they are issued for mailing list purposes.

Lumber Service

THE MAAS-NEIMEYER LUMBER CO. maintains an organization, stock, and plant, fully equipped to meet the largest and most exacting lumber needs of builders and manufacturers.

Our mill employs skilled men whose training has been to regard quality in their workmanship above quantity, and we have supplied millwork to many of the largest buildings and finest homes in Indianapolis where quality was a requisite. Quite a number of local manufacturers have utilized our facilities for manufacturing wood specialties to detail.

Our stocks are unusually large, comprising practically all the merchantable hardwoods, Southern pine, Western and Northern woods, heavy timbers, heavy joists, boards and dimension stock. We sell in carload lots as well as at retail and will welcome an opportunity to serve you.

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

All members of this association have subscribed to the following

STANDARDS OF PRACTICE

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.

$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.

Directory Libraries

¶ Every Polk office has a library of directories of various cities. These are maintained for the convenience of our patrons, and they are constantly supplying information of many different kinds to people who come to use them.

¶ City Directories are City Catalogs. They contain a list of everybody and everything within a city. Many of the more progressive concerns buy directories of various cities as they are issued for mailing list purposes.

Directory Libraries

¶ Every Polk office has a library of directories of various cities. These are maintained for the convenience of our patrons, and they are constantly supplying information of many different kinds to people who come to use them.

¶ City Directories are City Catalogs. They contain a list of everybody and everything within a city. Many of the more progressive concerns buy directories of various cities as they are issued for mailing list purposes.

BOOKWALTER-BALL-GREATHOUSE PRINTING COMPANY

Unretouched photograph showing a section of our Press Room. The Equipment of this department includes modern presses of various types for handling all classes of work

Our clients are those representative concerns who insist on quality and service at a reasonable price. We handle the work of the largest as well as the smallest users of printing, including the progressive and conservative houses. This plant is officered by men who have devoted their lives to this industry. Every Department is manned by experts in their particular line.

A part of the Bindery, showing automatically-fed folding machines. Large volume handled quickly reduces ultimate cost to the user

We have, in addition to the usual departments of a Printing Plant, a highly-trained corps of Artists, capable of producing Commercial Art of all kinds, retouching and the making of layouts. We design and furnish engraved stationery and announcements. We handle publications from the setting of the type to the addressing and placing in the mails. There is nothing in the line of Advertising Printing we can not perform, from the writing of the copy to the planning of your campaign.

Modern book-sewing machines. More than a million copies pass through these machines annually

One of the floors of the Bindery. Note the exceptional light and space available for this important work

School-books ready for shipment. We produced more than half-million books of this type in 1922

We would like to discuss your printing problems with you. We can not alone give you service, but SAVE YOU MONEY as well. A post card or a telephone call will bring our representative

BOOKWALTER-BALL-GREATHOUSE PRINTING COMPANY

HERE in Indianapolis, in the very center of Industry, is one of the largest and best equipped plants of its kind in the Central West. Devoted exclusively to the Graphic Arts, it represents more than a quarter century of service to discriminating users of Printing. It is housed in a large, modern, daylight, concrete group of buildings, especially adapted to the production of high-grade printing of all kinds. It is equipped with the most recent developments in labor-saving machinery, and the work passing through this plant is handled expeditiously and economically. As an example of the capacity of this modern Institution, its paper warehouse, which is one of the group of buildings mentioned, will carry *thirty-eight* carloads of paper, approximating 1,520,000 pounds, at one time.

Due to the modern facilities and equipment of this plant, together with its exceptional capacity and our large buying power, we are in position to deliver a better product at a much lower cost; where catalogues, broadsides, publications, magazines, school-books, text-books, law books, college annuals, novels, commercial printing of all kinds, high-grade stationery, sample books, or in fact any kind of work of this nature is involved. The Bindery is one of the largest and best equipped in the Industry and as a consequence we can furnish any kind of binding—cloth, leather, board, buckram, paper—machine or hand-made—stiff or flexible, efficiently and economically.
